

OYR COUNTRY GREECE

Greece shares borders in the North with Albania, F.Y.R.O.M and Bulgaria. In the East with Aegean Sea and Tarkey, in the West with Ionian Sea and in the South with Mediterranean Sea. Greece is mostly mountainous. It has high mountains such as Olympus, but also large plains such as Thessalia and Thessaloniki plains, rivers such as Axios, Pineios, lakes like Trichonida. The summers are hot and dry. In winter it is cold and sometimes the temperature drops below zero. The weather in the islands is always windy. People are farmers or ^{sun}a business. Sometimes they leave Greece to find work. I think that Greece is one of the most beautiful countries in the world!
