

Brown bear lives in mountains in Pindos and Rodopi. Its colour is brown, it's 1,70-20 metre and weighs 60-250 kilos. It lives 20-25 years in forests, eats grass, roots, ants, fish, fruits. It likes honey too. It eats smalls animals, too. It listens and smells very well but it doesn't see very well. It can run very fast and it has got strong legs. It has one, two or three babies the winter. The babies bear can't see and weigh 200-300 grams. Today in Greece there are about 180 bears.
